- Plenum Suitable
- FAR 25 Approved
- Expands Up To 150%
- Resists Gasoline And Other Chemicals
- Cut And Abrasion Resistant

Cut Cleanly
Hot Knife

Material
Perfluoroalkoxy

Grade
TFN

Monofilament Diameter
.016″

Drawing Number
TF001TF-WD

High Temp Stable, Abrasion Resistant, Low Outgassing

TECHON PFA (TF) expandable sleeving is ideal in applications where flame, chemical and very high temperature resistance are significant considerations. Braided from 16 mil perfluoroalkoxy (PFA) polymer monofilament.

The high temperature properties of TF make it the ideal choice for aerospace, military and high-tech applications where thermal stability and low outgassing are critical. TF is suitable for plenum applications.

What Makes Techon PFA So Special?

Techon PFA is inert to virtually all chemicals and is considered the most slippery material on the planet. These properties have made it one of the most valuable and versatile technologies ever invented,
contributing to advancements in areas such as aerospace, communications, electronics, industrial processes and architecture.

High temperature resistance and low outgassing allows Techon PFA sleeving to function in high-temp environments.

Colors Available:
Natural (NT) & Black(BK)
