

## Medium Duty Floor Cable Protector

Medium Duty profiles uncoil to effectively lay flat across surfaces, while the tapered sloping sides are pedestrian-friendly. The pre-split back enables users to simply retrofit the profile over the cables. Features combine so that cables can be contained within the cavity, with minimal risk of movement.

The unique connector pins provide an effective friction-fit connection that can be pushed-in, then later pulled apart, in adjoining lengths – to cover whatever length of cable is required. It is insufficient covering, say, only two-thirds of a trailing cable!
